ABOUT ME

While working as a Software Developer in 2018, I was introduced to ReactJS by a close friend. I've always been curious about software development but after creating some small projects i was officially hooked. Since being introduced to ReactJS i have watched and read as much material as one can possibly go through, finding something to be passion about and love.

WORK EXPERIENCE

Junior Front End Developer
RaisisSoftware [16/11/2020 – Current]

City: Suceava
